  - Eldest graduated from a private university
  - Youngest attends community college and plans to transfer to UC
Panelists: Parent ambassadors

Antoinette
Chula Vista, CA

Shawn
Ramona, CA

Greg
San Ramon, CA

Justine
Moraga, CA
What is the *mission* and *goal* of parent and family programs?
MODERATED PANEL

What should I know as a parent/guardian to help my student transition and thrive (not just survive) at UC?
MODERATED PANEL

What are some ways I can be involved with my campus community?
Questions & Answers
Parent and family resource guides for all nine undergraduate campuses can be found in the Parent Prep companion guide associated with this webinar.

GETTING TO KNOW UC:
One university, nine unique campuses

UC Berkeley
Considered one of the world’s premier public universities, UC Berkeley provides a stimulating education of academic excellence, student activities and pre-employment training for the future global workforce and community leaders. It integrates physical science and engineering, social science and humanities, qualitative research and quantitative analysis, arts and architecture with real world research, living and doing facilities, and scenic beauty of the San Francisco Bay Area. This is the university where world-class faculty set the pace for major research, discovery and innovation.

UC Davis
Established in 1905, UC Davis is recognized worldwide for its research and educational programs in agriculture, animal science, environmental sciences, and veterinary medicine. It is also home to the world’s leading research and teaching programs on the use and conservation of nervous and physical resources, and the largest research library program in the nation, and a research and educational network that extends across a 250 mile radius.
